

What topics will we be studying?

Throughout this year we will be looking at a variety of different events, and people throughout history. To begin with we will be beginning with our focus on the Russian Revolution, and the events and people that played a crucial role in it. Our next focus will move to the later end of the Twentieth Century, where we will be having a close look at the United Kingdom in the late 70s & 80s, where we will be engaging with the idea of the Rise Against the Establishment. Finish focus will give you the autonomy to engage with a particular area of history that interest you!

What skills will I need?

- >>Critical thinking/questioning<<
- >>Argumentative<<
- >>Able to make judgements about events & evidence<<
- >>Good communicator (verbal or written)<<
- >>Curious & inquiring mindset<<
