## www.warrington well-being way

Name:

Age:

Year level:

Date:

This report is intended to bring you up to date with your child's progress and achievement at school through comments based on formalised assessments, teacher observations and children's self assessment.

Each child has unique abilities and strengths and will develop at their own rate of progress. This report should be read in the light of your knowledge and understanding of your child.

We aim to create a partnership between school, student and family with an overall goal to balance achievement in all learning areas alongside your child's personal well being.

This is a picture of the things I enjoy learning about at Warrington school

I enjoy learning about these things

I am working on these goals

I need to work on these things
