# INTRODUCING YOUR READING PROGRAMME

(lesson two)

Group Activity - Concept Mapping

- Get students in groups to cut and paste this sheet of genre terms onto a large sheet of newsprint/A3paper. Let them arrange terms as they like with the expectation that they will explain their groupings to their classmates at the completion of the exercise.
- After a set period, allow students to report back their concept maps, explaining why they have placed specific terms in certain places/groupings.
- Ask questions to challenge responses!
