Trying Ubuntu in NZ

The computer needs to be 500mhz or faster and have 256mb Ram

Plug all cables necessary into the computer
Turn on the computer and insert the Ubuntu CD
Turn off the computer and restart with the CD inserted

On the screen choose English language

Try Ubuntu Without Any Changes To Your Computer – enter

Wait patiently

Play

When you are finished click the red shut down button and the disk will be ejected

Remove the disk and press enter
