

I live in the coral reefs in the ocean.

I am not the only one of my kind,
actually there are 30 different species
related to me.

I am brightly colored with strips and may
have been in a popular movie!

Clown Fish

I live in the ocean.

I have a highly elastic stomach that allows me
to “blow up” to protect me from predators.

I have spikes all over my body.

Puffer Fish

I live in fresh water.

I have a very unique shape and

I am also a popular pet.

I can be very territorial.

Angelfish

My species has been around
for 400 million years.

I have the most powerful jaw out of
all the animals on this planet!

I am also a carnivore.

Great White Shark

I live in the tropical forests, deserts,
and savannas of Mexico.

I am not poisonous.

A close relative is the Anaconda.

Boa Constrictor

I have lived on this Earth for
about 200 million years.

I live in rivers, lakes and wetlands
in Africa, Asia, South America,

Southern North America, and Australia.

I have a strong jaw with long pointed teeth.

Crocodile

I am a member of the lizard family.

There are more than 2,000

different species of me.

I have sticky pads on my feet that
would allow me to walk on a ceiling.

Gecko

I live in Central America, South America
and the Caribbean.

I am a member of the lizard family.

I live in dry deserts and can also be a great pet!

Iguana

I am poisonous.
