Local Accident Statistics Form

To be completed by club SSO. This data is for the sole use of improving the pilot development program.

 Please do your best to identify local problems. You do not need to list pilot names. It is irrelevant wether these accidents have been reported elsewhere or not but lets incorporate local problem areas to try to improve this program and prevent future occurrences.

What types of accidents have occurred at your local sites in the last 5 years?

Type	How often	Contributing factors
Blown Launch		
E 11 1' '		
Forced landing in		
other than LZ		
Crash into hill		
** 1 1' '		
Heavy landing in		
LZ – Top		
Heavy landing in		
LZ – Bottom		
2.51.1		
Mid air		
Other		
L	1	I .
