

Other Key Issues

Quality Assurance

This section is committed to looking at other pertinent issues when developing material for Open and Distance Learning. These include, but are not limited to:

1. Quality Assurance Issues
2. Intellectual Property Right Issues
3. Accreditation of ODL
4. Cost effectiveness and Relevance
5. Special Educational Needs

If there is access to internet or computers it is important that the facilitator uses the information on the wiki site for the presentation and print the materials for the participants to use in the workshop.

Participants are encouraged to discuss the importance of the issues presented and to give local examples from their context.
