**Options**

[Personal Information](#)

This contains personal information about yourself such as your name, your email address, etc.

[Message Highlighting](#)

Based upon given criteria, incoming messages can have different background colors in the message list. This helps to easily distinguish who the messages are from, especially for mailing lists.

[Index Order](#)

The order of the message index can be rearranged and changed to contain the headers in any order you want.

[Simple POP3 Fetch Mail](#)

This configures settings for downloading email from a pop3 mailbox to your account on this server.

[SpellChecker Options](#)

Here you may set up how your personal dictionary is stored, edit it, or choose which languages should be available to you when spell-checking.

[Display Preferences](#)

You can change the way that SquirrelMail looks and displays information to you, such as the colors, the language, and other settings.

[Folder Preferences](#)

These settings change the way your folders are displayed and manipulated.

[Change Password](#)

This connects to your local Password Server to change your email password.

[IMAP server information](#)

Run some test IMAP commands, displaying both the command and the result. These tests use the Squirrelmail IMAP commands and your current Squirrelmail configuration. Custom command strings can be used.

[NewMail Options](#)

This configures settings for playing sounds and/or showing popup windows when new mail arrives.
